Gold Glesed To-Day in N. Y. at 129.

NEW YORK; May 12. This morning the stock market was better than yesterday. There was a sharp demard for leading stocks, to which the bears respond-ed very feebly, and prices rose from 1 to 21/2 per cent. Later in the day the bears threw onsiderable stock on the market and brought prices down somewhat. On the 15th of this month the hears will have to deliver a very arge amount of stock, sold from 20 to 40 per ent below the present quotations. They ave thus far been unable to shake prices materially and there appears no possibility of thetr coming ont of the corner without very heavy lesses. Government stocks are quist, the large subscriptions to the 7.30s evert attention from all other bonds and partially depress prices, State bonds quiet and firm. Coal and other stocks better. Rail road mortgages steady.

The gold market is active this morning, but quiet in the evening. The gold and stock rates have been brought to sympathise with each other, by a shrewd mancuver of the biar, ard hence it is an easier matter to bring down prices than formerly.

Money is in good demand, but quiet and easy at low rates.

NEW YORK, May 12 The daily papers continue to pratest against a secret trial of the conspirators, and some of them have iong editorials on the subject. The Herald's Londou letter says the French expedition, composed of four thousand French troops and as many Belgiaus, has ctarted for lower California and Sonora. The estensible object is to reduce the Indians of Yucatan. Sonora is to be speedily and strongly garrisoned with French troops, so that when Sonora and Sonalen are flusly handed over to France France may be able to hold them. Sonors and Sunden are flusly handed over to France, France may be able to hold them.

The Times' Washington special says Gen. Hancock, who was personated by a scounirel luthe recent daring attempt at the banking swindle in Chicago, is in this city in command of the Middle Department, and has not been absent for several weeks.

Among the witnesses for the prosecution was Mr. A. C. Perry, who was on the train at the time of its capture. He testified that when passengers were ordered to leave the cars he saw Mrs. Perrin shaking hands with the rebels and seemingly very much pleased. She also pointed towards a trunk which the rebels broke open.

There were men paroled at Appamattex whose names were not on the rolls, be cause the rolls had been forwarded to General Lae several days previous to the surrender.

FINANCE AND TRADE

OFFICE OF THE LOUISVILLE DEMOCRAT,?
FRIDAY EVENIEND. May lish, 1866.
The markets hinge on the gold question: therefore terest is centered in the quotations for coin. As the emium rises or falls, the prices of commodities go n r down, but more the latter than the former, because the general impression is that we are tending steadily loward a lower level that shall be permanent; that is, a evei from which price will not be floated by a sweeping eculative movement in gold. In all the markets, mers are supplying themselves from hand to mouth; nd this, so far as regards speculative mover uses trade to drag. This will be the case until th remium on gold reaches a point in the downward scale, clow which it will not be likely to go, and prices of mmodities are adjusted thereto. The public mind hus satisfied, business will feel the effect of the great lance of money, and speculations then will turn on the probable duration of the paper money inflation. In flour we have no special change to note, unless it is more activity in the market, the sales to-day reaching bout 200 bbls at \$6 50@9 for superfine and extra fam lly. There was a better feeling in wheat, with sales at \$1 30@1 40 for red and \$1 40@1 50 for white. There was a fair demand for corn at 85c for prime from wagons.
